# Unleash your swim

2XU is proud to offer athletes the finest triathlon wetsuits in the world.

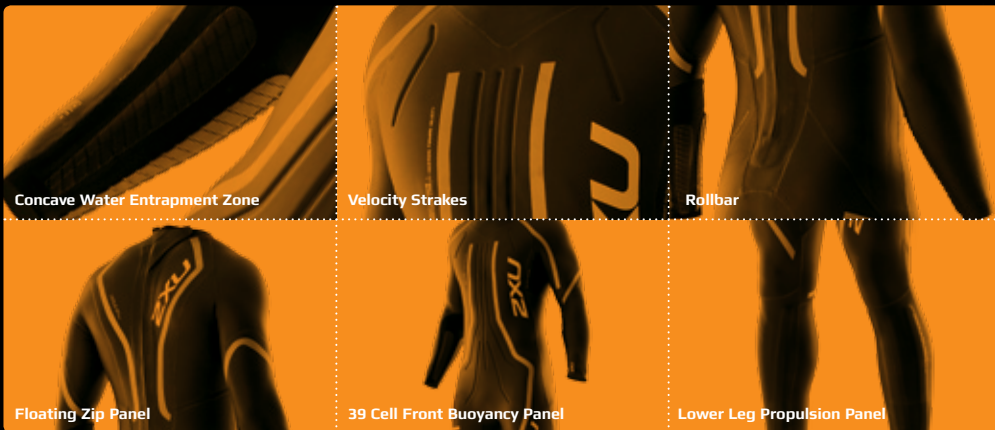

Engineered with world leading Japanese Yamamoto neoprene and 2XU's highly acclaimed family of proprietary wetsuit creations; from Floating Zip Panels, Velocity Strakes, Lower Leg Propulsion Panels and Rollbar through to 39 Cell Front Buoyancy Panel, 520% Stretch Lining and

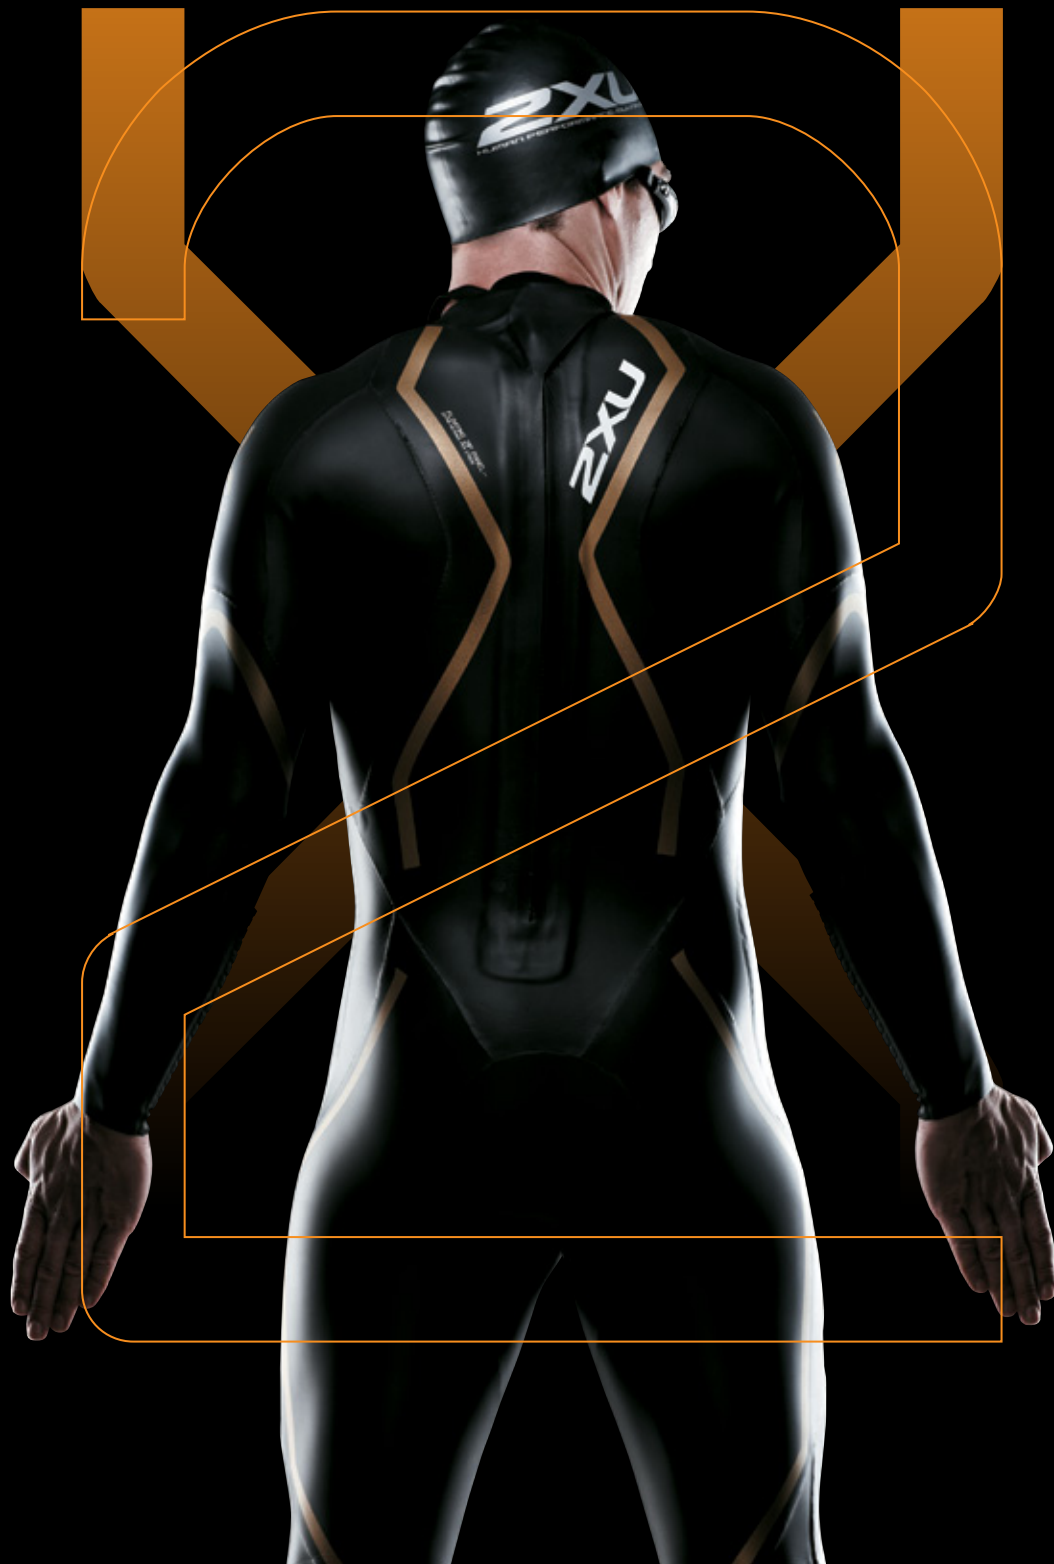

Hydrodynamic Silicone Coating, all the fundamentals of open water swimming have been addressed.

Not only do all 2XU wetsuits feature the most buoyant 39 cell neoprene on the market, but incredibly flexible lining and intelligent design lines to ensure swimmers move through the water with unparalleled efficiency and speed.

No imposing coloured panels, seams over zips or hype. Just reliable performance materials and the simple, clever principles required to deliver exceptional results time and time again.

## X:2 PROJECT:X

The X:2 exists in an ultra high performance category of its own.

- 01 FRONT PANEL WITH SEAMLESS BUOYANCY INSERTS**
- 02 TITANIUM ALPHA COATING // INCREASED BLOOD FLOW = FASTER SWIM TO BIKE**
- 03 CONCAVE WATER ENTRAPMENT ZONE XTREME // ULTRA ENHANCED DPS\***
- 04 LOWER LEG PROPULSION PANEL // INCREASED KICK POWER**
- 05 NANO SCS COATING // EXTRA 4% BUOYANCY**
- 06 TRANSITION PANEL // SEAM OVERLAP TECHNOLOGY**
- 07 SEAMLESS SHOULDER // ARM PANEL // ENHANCED FLEXIBILITY**
- 08 520% STRETCH LINING // ENHANCED LATERAL FLEXIBILITY**
- 09 VELOCITY STRAKES // HYDRODYNAMIC STABILITY**
- 10 ROLLBAR // IMPROVED CORE BUOYANCY + BODY POSITION**
- 11 39 CELL FRONT BUOYANCY PANEL // MAX BUOYANCY**
- 12 FLOATING ZIP PANEL // EXTRA DPS\***
- 13 SIZES // A SPECIALISED, COMFORTABLE FIT**
- 14 2 YEAR WARRANTY**

Promising to reset the global benchmark for triathlon wetsuits, this supreme piece is engineered to encourage a more efficient flex and body roll. The V:2's X-Flex Front Panel incorporates seamless inserts with triple the buoyancy of regular neoprene to promote speed through the water like never before. Additional proprietary 2XU features include Transition Front Buoyancy Panel, Titanium Alpha Coating, X-Flex for improved hip rotation technique and CWEZ X catch panel for unprecedented surface area on the forearm.

- 12** SIZES // A SPECIALISED, COMFORTABLE FIT
- 13** 2 YEAR WARRANTY

The super slick new V:2 takes the award-winning 2XU V:1 to even greater heights. Upgraded for 2011 to feature Titanium Alpha Coating for enhanced blood flow in the lower limbs, the wearer will enjoy a faster swim to bike transition than ever before. Proprietary 2XU features include Velocity Strakes for improved hydrodynamics and increased forward motion, Concave Water Entrapment Zones on the forearm and Propulsion Panels on the lower legs for greater power out of the kick. 2XU's outstanding Rollbar, Floating Zip Panel and Transition Panels are also included.

Utilising 2XU's new Silicone X Skin(SXS) coating plus world class Yamamoto neoprene across the entire suit, the new R:1 also features 3D print Catch Panels and 2XU's proprietary Rollbar, Floating Zip Panels and Velocity Strakes. Engineered from world class materials, the R:1 also comes with 1.5mm Underarm/Shoulder Panelling for maximum flexibility and a 4.5mm Front Buoyancy Panel. With a two year warranty and the price point of a mid-level suit, the R:1 represents exceptional value.

Boasting 2XU's new Silicone X Skin(SXS) coating alongside world class Yamamoto neoprene, the T:2 is engineered for triathletes demanding superior buoyancy and flexibility, without the expense. Additional proprietary 2XU features include Rollbar, Floating Zip Panel, Transition Panel and 39 Cell Front Buoyancy Panel. Updates for Summer 2011 include graduated Velocity Strakes in the front chest panel to offer heightened body positioning and streamlined tracking through the water like never before. Complete with a two year warranty, the T:2 represents exceptional value.

Boasting 2XU's new Silicone X Skin(SXS) coating alongside world class Yamamoto neoprene, the new ST:2 promises to outperform all other sleeveless suits on the market. Additional proprietary 2XU features include Rollbar, 520% Stretch Lining, Floating Zip Panel and 39 Cell Front Buoyancy Panel for efficiency through the water. Graduated Velocity Strakes across the chest offer heightened body positioning and streamlined tracking through the water like never before. Complete with a two year warranty, the ST:2 represents exceptional value.
